

Green Growth Forum

Copenhagen - the Davos of Climate

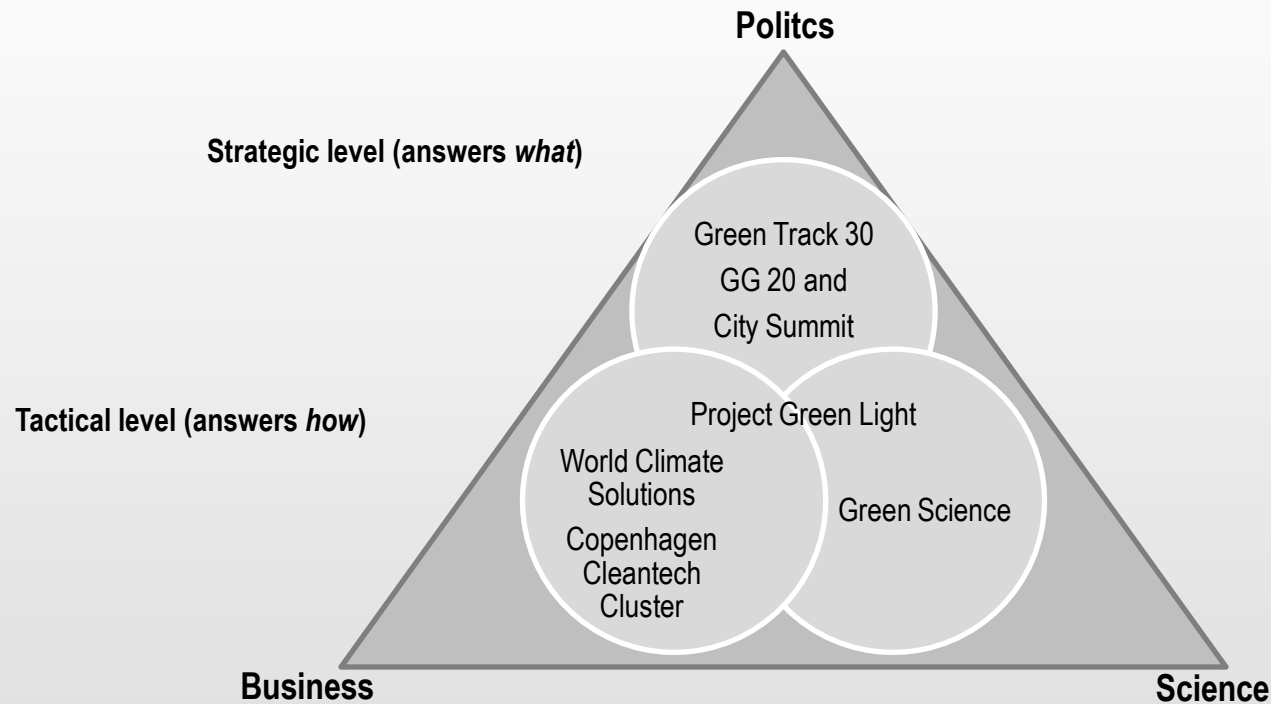

The initiatives

Perspectives	Initiatives	Objective
Business/politics – Europe	Green Track 30 – European Roundtable	Perspectives on how Europe can become the world's leading region for green growth
Business/politics – national	GG20 – leading green economies	Coordination and demonstration of best practice within green growth at national levels
Politics - urban	Green City Summit	Coordination and demonstration of best practice within green growth at an urban level
Science/ business	Green Science	Matchmaking between science and business.
Business solutions	World Climate Solutions Copenhagen Cleantech Cluster	Demonstrates green growth business solutions Building new green clusters
Communication/ storytelling	Project Green Light	How to communicate the benefits of green growth to a wider audience.

All of the initiatives are interconnected and complementary – they represent the decisive trinity of business, politics, and science and how to tell the true story. They will be broad together in Bella Center on September 29th and 30th 2010.

The green growth platform

The Green Growth Forum create an integrated strategic and tactical platform to answer *the what* and *how* of green growth.

?

København kan blive en af verdens førende mødesteder for grøn vækst?
