COPENHAGEN CLEANTECH CLUSTER

Copenhagen Cleantech Cluster's vision is to develop one of the world's leading and most renowned cleantech clusters, creating superior value for the cluster companies and the research environment and to differentiate themselves by connecting cleantech technologies and players across sectors and value chains.

FOCUS AREAS

Copenhagen Cleantech Cluster carries out projects within five focus areas, each specifically designed to involve all the cleantech actors in the cluster and meet the needs of an ever-changing cleantech industry.

FACILITATION

Communication & Coordination
The Secretariat of Copenhagen Cleantech Cluster coordinates the cluster's activities and keeps members informed about projects, news and events within the cleantech industry.
cphcleantech.com/facilitation

MATCHMAKING

Partnerships & Networks
Facilitating matchmaking between organisations and people.
